**June 24 – 28 2024**

**Florence (FI)**

## DAY 1

### Morning

- Arrival at the airport of Florence
- Transfer to the hotel and check-in

### Afternoon

- **Welcome meeting** with COSVIG, project partners and participants.

### Evening

- **Networking dinner** to welcome the delegation

## Day 2

### Morning

- Meeting with COSVIG and representatives of National/Regional Clusters, Universities and Research Institutes, Associations and non-profit Organizations involved in the development and promotion of clean energy solutions at regional and national level.

*The participants will be introduced to the country's renewable energy landscape. The meeting will provide a solid foundation for understanding the significance of clean energy in Italy's journey towards carbon neutrality.*

- Lunch Break

### Afternoon

- Meeting with representatives from COSVIG and Public Authorities to learn about regional initiatives to reduce emissions. Site Visits to the Smart City projects in Florence, including innovative urban planning, sustainable transportation systems and energy-efficient buildings

*The presentations will highlight the regional goals and the city's achievements, including its recent ranking as the second smartest city in Italy in 2024. Topics will include current initiatives, energy transition efforts, notable projects and best practices. The tour will provide insights into how Florence is integrating technology and sustainability to enhance quality of life and reduce environmental impact. Participants will have the opportunity to witness first-hand the integration of clean energy technologies and carbon management solutions, stimulating ideas for potential application in similar projects in Türkiye.*

## DAY 3

### Morning

- Transfer to Larderello (PI)
- Meeting with COSVIG and ENEL GREEN POWER and Visit to a Geothermal Power Plant
- Visit to a GeoDH plant

*Information on the geothermal region. ENEL GP experts will share their Knowledge on geothermal power generation.*

- Visit to the geothermal brewery and introduction to the Renewable Energy Food Community - Lunch Break

### Afternoon

- Visit to the Geothermal Museum in Larderello (PI) or to the Geothermal Natural Park «Le Biancane» and MUBIA Museum Monterotondo M/mo (GR)
- Transfer to Florence

## Day 4

### Morning

- **Workshop on Italy's Carbon Border Adjustment Mechanism (CBAM)**

*Experts from government agencies and industry associations will shed light on the policy design, implementation challenges, and the potential impact on trade and competitiveness. Participants will not only gain insight into Italy's experience but also learn about the broader European Union framework and its implications for other regions, including Türkiye. The participants will also have the opportunity to learn about successful case studies and best practices in carbon management for the clean energy sector*

- **Lunch Break**

### Afternoon

- **Interactive sessions with members of the CoSviG, a network of companies, research institutions, and organizations involved in the development and promotion of clean energy solutions.**

*Participants will engage in discussions on Italy's energy transition, carbon pricing, and the potential for the implementation of a carbon border adjustment mechanism.*

## Day 5

### Morning

- **Roundtable discussion, bringing together participants, experts, and stakeholders from both Italy and Türkiye.**

*The aim is to foster knowledge sharing and transfer of best practices between the two countries, focusing specifically on the carbon border adjustment mechanism and carbon management practices for the clean energy sector. Participants will have the opportunity to present their learnings, exchange ideas, and discuss potential collaboration opportunities in implementing similar measures in Türkiye.*

- **Lunch and Greetings**

### Afternoon

**Free Time**

## Day 6

*Morning*

**Transfer to the airport and departure**
